TAB 5

JUSTIFICATION FOR 1905 SQUARE FEET OF ADDITIONAL SPACE

The new requirement for 1905 square feet of additional space is attributable to two factors; first, the approval for the establishment of an Automatic Data Processing Unit within the Operations Division of OSA generated a need for an additional 1000 square feet, and; second, space requirements for staffing the Immediate Office of the Deputy Director (Research) were underestimated by approximately 900 square feet. This space will be used to house supergraded personnel acting in an advisory capacity to the Deputy Director (Research).
